

HKU-UCL Research Collaboration Series: Pharmacy Research Using Big Data

BIG DATA

Date: 18th Nov 2018

Time: 2pm-5:35pm

Venue: LT1, William MW Mong Block, 21 Sassoon Road, Pokfulam, Hong Kong

Pharmacoepidemiology

What electronic databases can do in addressing clinical questions?

Dr. Ju-Young Shin, Sung Kyun Kwan University, Korea

Dr. Wallis Lau, UCL School of Pharmacy, London, United Kingdom

What should be aware of when using these data to address clinical questions?

Dr. Edward Lai, National Cheng Kung University, Taiwan

Mr. Kenneth Man, UCL School of Pharmacy, London United Kingdom

Pharmacogenomics and big data (Parallel session)

Mendelian randomization for drug repositioning

Dr. Ching-Lung Cheung, The University of Hong Kong, Hong Kong

Introduction to UK biobank and epidemiology of blood pressure

Dr. Eric Wan, University of Oxford, United Kingdom

Pharmacoeconomics (Parallel session)

Literature review on the health economics of inhaled medications for the management of respiratory conditions

Dr. Esther Chan, The University of Hong Kong, Hong Kong

Cost analysis of primary care interventions for patients with diabetes

Dr. Carlos Wong, The University of Hong Kong, Hong Kong

Health economics for shared-decision making – an evaluation of NOACs in HK and China

Dr. Shirley Li, The University of Hong Kong, Hong Kong
