The University of Hong Kong

HKU LKS Faculty of Medicine Department of Pharmacology & Pharmacy

香港大學藥理及藥劑學系

Zoom Seminar

Small artery intercellular communication and vasospasm

will be delivered by

Professor Christopher Garland

Professor of Vascular Pharmacology Department of Pharmacology University of Oxford, UK

on Monday, August 23, 2021 at 4pm (HK time)

Zoom link: https://hku.zoom.us/j/99467273491

Meeting ID: 994 6727 3491 (HKU portal login required.)

Bio

Christopher Garland is Professor of Vascular Pharmacology at Oxford University, and Fellow and Tutor in Medicine and Biomedical Science at Magdalen College, Oxford. He is also (since 2013) a visiting professor at the University of Queensland, Australia; from 2010-2015 he held a Royal Society-Wolfson Merit Award; from 2012-2016 he was a member of the council of the Royal Society of Biology; from 2014-2018 he was Senior Dean of Arts at Magdalen College. He is a Fellow of the British Pharmacological Society and the Royal Society of Biology. Before moving to Oxford, he was the Professor and Head of Pharmacology in the School of Pharmacy, University of Bath (2000-2008) and previously Reader then Professor of Cardiovascular Pharmacology, University of Bristol, (1993-2000). His research investigates how the very small (endothelial) cells that line the vasculature of the body control the flow and pressure of the blood, and his research contributions were recognized by the award of the 2009 JR Vane Medal of the British Pharmacological Society. He has served on numerous external grant-awarding bodies, including the Medical Research Council (Molecular and Cellular Medicines Board, Physiological Systems and Clinical Sciences Board), the Wellcome Trust (Physiology and Pharmacology Panel) and the British Heart Foundation (BHF) Project Grants Committee.
